

**More War.**  
Mrs. Styles—I want one of these new military bonnets.  
Mr. Styles—How much are they?  
"Only nineteen dollars."  
"I can't afford that, and I don't see why you want a military bonnet. You're not going to fight, are you, dear?"  
"I am if I don't get the bonnet."

David Cline of Philadelphia has completed without an accident 45 years as a railroad engineer.

A man says "I may" and a woman "I will."

**Help to Indians.**  
Bacon—I see Choctaws and Creeks living in Texas have scarcely anything traditional left except their speech, and many of them can't speak English.  
Egbert—Well, I know a lot of women who can tell 'em where they can get more paint and feathers.

**His Limit.**  
"Did young Spender listen to you at all when you spoke to him about the bill he owes us?"  
"Oh, yes, he paid close attention."  
"Humph! That's all he ever will pay."

## Save the Babies.

**INFANT MORTALITY** is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*

**Not Perfect.**  
"How are you making out with your new motor boat? Learned to run it yet?"  
"Oh, yes. That boat takes me anywhere I want to go."  
"That's fine."  
"The only trouble is it won't bring me back."

**Cheap.**  
"How did you make out with your garden this year?"  
"Fine. I raised so many vegetables that the exercise I got out of working in it cost me hardly anything at all."

**Loading Guns With Air.**  
Jack Tar knows what it means to tote heavy shells around ship, but Jack Tar will not need to worry about this duty longer, according to the Popular Science Monthly. Ammunition is now loaded by pneumatic tube straight from the magazine to the firing turret. An intricate mechanism prevents the shells from entering the breeches of the guns at great speed and also prevents any mistake in firing.

Mrs. E. B. Clarkson, ninety-six, Alton, Ill., has not missed a Sunday school session in 36 years.

## W. L. DOUGLAS

**"THE SHOE THAT HOLDS ITS SHAPE"**  
\$3.00 \$3.50 \$4.00 \$4.50 & \$5.00 FOR MEN AND WOMEN

Save Money by Wearing W. L. Douglas shoes. For sale by over 9000 shoe dealers. The Best Known Shoes in the World.

W. L. Douglas name and the retail price is stamped on the bottom of all shoes at the factory. The value is guaranteed and the wear protected against high prices. The retail price is the same everywhere. They cost no more in San Francisco than they do in New York. They are always worth the price paid for them.

The quality of W. L. Douglas shoes is guaranteed by more than 40 years experience in making fine shoes. The smart styles are the leaders in the Fashion Centres of America. They are made in a well-equipped factory at Brockton, Mass., by the highest paid, skilled shoemakers, under the direction and supervision of experienced men, all working with an honest determination to make the best shoes for the price that money can buy.

Ask your shoe dealer for W. L. Douglas shoes. If he cannot supply you with the kind you want, take no other shoe. Write for interesting booklet explaining how to get shoes of the highest standard of quality for the price, by return mail, postage free.

LOOK FOR W. L. Douglas name and the retail price stamped on the bottom.

W. L. Douglas Shoe Co., Brockton, Mass.

## SPEDING IS UNDER A BAN

Heavy Penalty Follows Reckless Driving in French War Zone.

"Strapped to a wagon in full view of the troops for two hours a day, loss of 90 days' pay and loss to the wife of the man's allotment," was the punishment awarded by a field court-martial to a driver for "very slightly exceeding the speed limit." Was Mr. Lloyd-George aware of the case? Mr. C. Watson asks.

The court-martial was quite within its rights, is the reply of the war office. Very strict regulations have been laid down to prevent reckless driving in France, the authorities there having had their attention called to a number of cases where children had been injured owing to that cause.

## OLD PRESCRIPTION FOR WEAK KIDNEYS

A medicinal preparation like Dr. Kilmer's Swamp-Root, that has real curative value almost sells itself. Like an endless chain system the remedy is recommended by those who have been benefited to those who are in need of it.

Dr. Kilmer's Swamp-Root is a physician's prescription. It has been tested for years and has brought results to countless numbers who have suffered.

The success of Dr. Kilmer's Swamp-Root is due to the fact that it fills almost every wish in overcoming kidney, liver and bladder diseases, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

Do not suffer. Get a bottle of Swamp-Root from any druggist now. Start treatment today.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

## Cheap Cooking Range.

An electrical toy range has lately been invented which can be made of real utility in a small apartment. At a demonstration recently given a hearty meal for five persons was cooked at the expense of 12 cents' worth of current. The little stove includes an oven and six small hot plates. The meal cooked included a five-pound roast, boiled potatoes, biscuit, macaroni, two small apple pies and apple sauce. Of course such results are only obtained at that cost by a skilled demonstrator, but the tiny electric range has great possibilities, for the adult housekeeper as well as for the small girl it was designed to amuse.

Wright's Indian Vegetable Pills have stood the test of time. Test them yourself now. Send for sample to 375 Pearl Street, N. Y.—Adv.

**His Meal Ticket.**  
"I met Mr. Blinks at the Van Gels' dinner last night. Isn't he a most fascinating man?"  
"He has to be. If Blinks didn't get invited out to dinner three or four times a week he'd starve to death."

Edwin Woodring, hermit of Allentown, Pa., predicts speedy downfall of Turkey.

If a sick woman is able to sew she's on the mend.

## GRAND AMERICAN HANDICAP

The Greatest Trapshooting Event of the Year, Won with Winchester "Repeater" Shells.

The Grand American Handicap, the trapshooting classic, equivalent to the World's Series in Baseball, the highest honor the world has to bestow in trapshooting, the event that marks the climax in the trapshooter's career, was won by Capt. J. F. Wulf, of Milwaukee, with the wonderful score of 99x100 from the 19-yard mark. In making this great win he shot Winchester "Repeater" loaded shells.

The National Amateur Championship was won by F. M. Troch, of the State of Washington. Mr. Troch also took second place for National Amateur Championship at Doubles. He also won the Mound City Overture, and the General Average on all targets, and General Average on 10-yard targets. In winning all these events, Mr. Troch used a Winchester repeating shotgun.

The Women's National Championship, the first event of the kind ever staged at a Grand American Handicap, was won by Mrs. J. D. Dalton, of Warsaw, Indiana, with a Winchester repeating shotgun.

The Hercules All-round Amateur Championship was won by Edw. L. Bartlett, of Baltimore, with Winchester loaded shells. This was a hard match to win, as it called for 50 singles at 18, 20, 22 yards, respectively, and 25 doubles at 16 yards.

This was a great cleanup for Winchester guns and shells and a demonstration of their wonderful shooting qualities.

## Opportunity.

The train was passing through a prohibition state, and the hardware drummer had forgotten to provide himself with a flask. When the train stopped at a little station he got out and asked a native on the depot platform if there was any place in town where he could get a drink.

The native shook his head.

"You're just a day too late, stranger," he replied sadly. "The sheriff raided every place in town last night and confiscated all the booze. They're tryin' the fellers that sold it up to the courthouse right now."

"Lead me to that courthouse," commanded the drummer, pressing a coin into the native's hand. "They might want an expert up there to sample that stuff and tell 'em what it really is."

## All the Comforts of Home.

"I shouldn't call this a desirable apartment," said the lady who was looking for rooms. "There's a saloon only three doors away."

"That's just the point," replied the agent. "Think what a comfort it will be to know that your husband is never far from home."—New York Globe.

**Cold Snatchers.**  
Teacher—Johnny, can you tell me the function of the pores of our bodies?  
Johnny—They are the things we use to catch cold with.—Christian Register.

## HARVESTING AND CURING RASPBERRY CROP

RASPBERRY HARVESTERS AT WORK "BATTING."

Raspberries are harvested in two ways. For consumption as fresh fruit they are always hand picked. In fact, many of the commercial growers of raspberries which are intended for evaporation or drying prefer to hand pick rather than to "bat" the fruit. There are perhaps about as many advocates of hand picking as of "battering," and a grower must decide for himself which, under his circumstances, is most economical.

Hand picking does not require any special equipment, but there are a great many people who do not know what "battering" means.

In this method of picking the berries the bushes are bent over a device covered with muslin and the fruit is beaten into these trays like receptacles by the use of a very light paddle. The bushes are drawn over by a short wire curved bar, and with a light, somewhat curved bar, the well-ripened fruits are knocked from the plants up against the muslin and roll gently to the lower end of the tray, where the wider portions of the frame form a receptacle.

With a device of this kind one man is capable of picking from five to eight bushels of fruit daily, while the most expert pickers can pick only about 100 quarts, or three bushels. It will thus be seen that this device is of considerable advantage in that it shortens the period of harvest. The drawback is that a small percentage of the berries is lost by bouncing out of the tray as they are forced against the muslin by the stroke of the paddle. This loss, however, is not very great, amounting, perhaps to not more than one-half of one per cent in extreme cases.

The battering of raspberries is never practiced except upon fruits which are to be evaporated. After being dried, they must be looked over carefully by hand, as are beans, so as to remove any small leaves which have been battered into the trays with the fruit.

The use of heat, either from the sun or from some artificial source, for the purpose of drying the fruits has made the raspberry an important commercial product in certain sections of the United States. Regions which could not profitably engage in the growing of this fruit were its sole use to be found as a fresh fruit upon the market can now safely undertake its cultivation. While the sun drying of raspberries has been practiced as long

as the drying of berries on racks exposed to the sun is a practice largely in vogue in many of the raspberry growing regions, and was, up to comparatively recent times, the only method of curing and caring for the fruits of the raspberry. The method of sun curing is more or less inconvenient in that it requires a great deal of attention and provision for sheltering the fruit in case of showers, as well as covering for the racks at night to protect them from rain or dew.

The drying of berries on racks exposed to the sun is a practice largely in vogue in many of the raspberry growing regions, and was, up to comparatively recent times, the only method of curing and caring for the fruits of the raspberry. The method of sun curing is more or less inconvenient in that it requires a great deal of attention and provision for sheltering the fruit in case of showers, as well as covering for the racks at night to protect them from rain or dew.

EVAPORATING RASPBERRIES IN THE SUN.

## BEST BLACKBERRIES GROWN IN DELAWARE

Reason Is Because Farmers There Have Spent Entire Lives in Culture of Fruit.

Some of the best blackberries in the world are grown in the extreme southern part of Delaware. It may be asked: "Why do they rank among the best in the world?" It is because some farmers there have spent their entire lives, and practically all their farms in the culture of blackberries. The following are the methods employed by one of the most prosperous blackberry growers in Delaware: He always selects sandy loam soil, sheltered from winds. It is essential that this land be well drained.

In the spring as soon as the land can be worked, he sets out plants about 12 to 14 inches high. His favorite variety is the Lucrifer. He makes the rows about 6 or 7 feet apart. He leaves about 3 feet between plants in the row. The plants are set in shallow holes, the planter packing the dirt firmly around the roots. In doing so he sees that the roots are moist. He claims the advantage in the roots being wet is that the soil is made to hold firmer, thus enabling the roots to take hold in the ground sooner than otherwise.

The first year he plants peas between rows so as to allow no waste

## Think of Your Horse.

One of the worst types of cruelty to animals and one that is all too common is working a horse through a stretch of several hours in a hay or harvest field without sufficient water to drink.

## A Good Working Team.

Poultry raising is the true adjunct of dairying and ought to be hitched up with fruit raising on every farm where dairying is not a strictly commercial business.

of ground. He keeps weeds down from around the blackberry bushes and the ground soft, being careful not to injure the new shoots. The following years with the coming of warm, springlike weather, he cultivates the patch, and continues to do so until the berries ripen.

When the berries have gone he applies manure to the soil, spreading a good-sized forkful over each hill. Once each year for about seven years he repeats this method of manuring. The second year the bushes make a large growth. When they attain a height of 2 1/2 feet or 3 feet, he breaks the tip ends off, which causes the bushes to be stocky.

In autumn he bends the ends of the topmost canes down so as to touch the ground, covering them with enough dirt to hold them in this position. The effect of this is twofold, prevention of winterkilling and creation of new plants.

## SUCCESS WITH DAIRY COWS

Weed Out All Star Boarders and Keep Only Those That More Than Pay Their Own Way.

Don't be satisfied if the average milk yield from your herd is fairly good. Many cows board at the expense of the high-producing members of the herd.

Success on the dairy farm depends on weeding out all these star boarders and keeping only the cows that more than pay their way.

## Conserve All Moisture.

Keep the plows moving in the cultivated crops and the harrow in the grass and grain fields where the crop is not too advanced. All the moisture conserved at this time means an increased yield.

## Sore Necks and Shoulders.

See that the collars of your horses fit. Aside from humane treatment you cannot afford to allow your horses to get sore necks or shoulders during the busy season.

## THE EUROPEAN WAR A YEAR AGO THIS WEEK

September 18, 1915.  
Austrians withdrawing in sector of the Volhynian triangle of fortresses northeast of Lemberg.  
Russians began evacuation of Vilna.  
German attacks on Dvinsk renewed.  
French artillery severed great bridge across the Meuse at St. Mihiel.

September 19, 1915.  
Germans entered Vilna.  
British squadron shelled German coast defenses in Belgium.  
One German submarine sank another by mistake.  
Italian dirigibles bombed Alsosvizza.  
Bulgaria announced an armed neutrality.

September 20, 1915.  
Hindenburg's forces reached Vileika.  
German artillery shelled Serbian positions on south bank of Danube near Semendria.  
Artillery duels along the west front.

September 21, 1915.  
Russian Vilna army successfully escaped.  
Germans repulsed near Vilna and Smorgon.  
French made gains in Champagne and Lorraine.  
Russians sank German submarine in Black sea.  
General mobilization ordered in Bulgaria.  
British Chancellor McKenna announced new taxation.

September 22, 1915.  
Italians dislodged Austrians from the Dolomite valley.  
French aviators raided Stuttgart, bombarding palace of king of Wurttemberg.  
Russian armies assumed the offensive.

September 23, 1915.  
Russians reoccupied Lutsk in Volhynia, capturing 6,000 men.  
Russians won battle at Vileika.

Germans driven back near Pinsk behind Okinski canal.  
Austrian garrison evacuated Monte Coston.

Germany in note to United States promised to observe visit and search law.  
French aeroplanes attacked German positions in Lorraine and the Argonne.

September 24, 1915.  
Germans made furious assault on Dvinsk.  
French made gains at several points.  
German submarines sank five British steamers.  
Greece ordered mobilization of army and navy.

## WORTH KNOWING

A total of more than a billion feet of lumber was sawed by California mills during 1915, according to statistics compiled by the United States forest service. The report includes figures from 136 mills, 35 of which had cut 8 per cent of the total. Of 13 kinds of wood sawn, redwood led with a total of 418,824,000 feet, board measure. With the exception of about 1,000,000 feet, board measure, it was all California timber.

The per capita use of gas in Massachusetts showed a decline in 1915 as compared with the previous year. The total production of gas of all kinds amounted to 15,786,830,000 cubic feet in 1915, while in 1914 it was 15,536,223,500 cubic feet, a gain of only 1.7 per cent in actual output. During the year the population of the state increased about 2.5 per cent.

In the last 18 years the British electric light industry has grown from 38 private companies, with a capital of \$30,000,000, and 33 municipal plants, with a capital of \$10,000,000, to 276 private companies, with a capital of \$305,000,000, and 328 municipal plants, with a capital of \$260,000,000.

The Japanese are paying much attention to Australian ores suitable for refining or smelting in Japan. A party of Japanese engineers is about to visit Australia to make a study of this question.

William Harlow Reed, professor of geology in Wyoming university until his recent death, had the honor of finding what is said to be the largest skeleton of a dinosaur ever discovered. The find was made in Wyoming.

New regulations of the United States steamboat inspection service require persons to be twenty-one years old before being licensed as masters or chief engineers.

To warn of fire damp in mines an Austrian has invented a porous vessel through which the gas penetrates, makes electrical connections and rings a bell.

Most of the lead product of this country is smelted in three states, Missouri, Idaho and Utah, the amounts in 1915 being, respectively, 195,634 tons, 106,689 tons and 106,105 tons.

Water and fireproof barrels will be made in Hawaii from bagasse, a sugar mill by-product, for exporting sugar and importing potash.

A good deal of shark meat is eaten in the eastern United States by people who think they are eating something else.  
Bombay averages more than 72 inches of rain a year and gets most of it within four or five months.

## BUCKEYE NOTES

News From All Sections of the State

Columbus.—Dr. Meade Massie of Chillicothe is to be chairman of the speakers' bureau and F. M. Hopkins of Fostoria, owner of the Fostoria Review, is to be the chairman of the publicity bureau of the Republican state organization during the coming campaign, according to announcement just made by Charles Hatfield, Republican state man.

Toledo.—The health authorities expressed alarm when ten new cases of infantile paralysis were reported during the day. Victims are being isolated at the city contagious hospital as fast as reported, the authorities taking that precaution against quarantine in the homes. Further postponement of the opening of schools has been requested. There are now more than 100 cases in the city.

Fremont.—The Tindall bridge, south of Fremont, has just been opened to the public. The bridge was originally washed out by the flood in 1913 and the commissioners made a contract for a new span over the Sandusky to cost \$15,000. When the bridge was partially constructed it again was washed out, and this has occurred twice since.

Fremont.—With ideal weather, large congregations and impressive ceremonies the new Evangelical church at Lindsey was dedicated recently. At the close of the day's program it was announced that the subscriptions and pledges for the day aggregated close to \$4,000 more than sufficient to wipe out the outstanding claims.

Columbus.—Prof. W. R. Dazenby, professor of agriculture and horticulture at the state university, is seriously ill at Grant hospital in Columbus, suffering from pleurisy. His wife was summoned home from a summer sojourn in the east because of his critical illness.

Findlay.—The Ada Water, Heat & Light Company has given notice to its patrons that after Oct. 1, 1916, no heat will be furnished to private consumers, and that after April 1, 1917, neither light nor water will be furnished Ada under the present contract and franchise prices.

Columbus.—The Columbus Democrat, a weekly newspaper, has been taken over by James Ross, chairman of the Franklin county Democratic committee, and Rodney J. Deigle, former sergeant-at-arms of the Ohio senate, has been put in as editor in chief.

St. Clairsville.—Five thousand autoists from this section will participate in a parade fifteen miles long in celebration of the dedication of the 30 miles of paved road through Belmont county, built at a cost of \$750,000.

Columbus.—Six thousand students are expected to attend Ohio State university the coming year, over 1,200 already being enrolled. Students are coming from nearly every state in the union and there are many coming from foreign countries.

Galion.—Ray McClelland refused to pay a fine for drunkenness at Mt. Gilead and appealed to common pleas court. It was found that all fines imposed in Mt. Gilead for intoxication for the last 24 years had been illegal.

Fremont.—After he had attacked his wife and children and threatened to kill them, John Sampson, aged 44, farmer, was adjudged insane and removed to the Toledo hospital. A sunstroke is the cause of his mental trouble.

Cleveland.—Schools here are crowded to such an extent that many of the pupils are compelled to receive their instruction standing up. Radiators, boxes, tables and high stools are forming seats in some of the schools.

Columbus.—Five hundred and twenty-five requests for help at the state city employment bureau for one week and only 449 persons to fill same would indicate that Ohioans are pretty busy.

Newark.—Mrs. Samuel B. Lovejoy, who will reach the century mark if she lives until Oct. 26, is the first woman to apply for a pension under the new Ashbrook law.

Toledo.—Bankers here estimate that there are \$9,000 real savers in this city following investigation by manager of savings department of one bank.

Bellevue.—Farmers are circulating a petition asking for the establishment in Logan county of a county experiment farm.

Steubenville.—The annual northeast Ohio Methodist Episcopal conference, one of the largest in Methodism, convened here.

Findlay.—At the funeral of Mrs. Susannah Hummel, 82, were 37 grandchildren, 42 great-grandchildren and six great-great-grandchildren.

Columbus.—Ohio bankers gathered here for a three-day convention, over one thousand being in attendance.

Alliance.—The Alliance Machinery Company will spend \$500,000 on new buildings and machinery to double the capacity of its plant, it is announced. Employment will be afforded for 500 additional men.

Wooster.—The Masonic commanderies of Mansfield, Akron, Canton and Massillon took part in the dedication of the new \$50,000 temple by Wooster lodge. The dedication marks the centenary of Masonry in Wooster.

Toledo.—Five new branch libraries will be opened at Toledo next year, offering a field of endeavor for at least 20 young women.

Columbus.—An expenditure of \$40,000,000 is entailed in the plans to extend the lines of the Pennsylvania railroad to Detroit, it was announced recently at the office of the general superintendent of the road in Columbus.

Bellevue.—A referendum vote has been called at the November election on the ordinance recently passed by council prohibiting Sunday baseball in Bellevue.

## GIRL COULD NOT WORK

How She Was Relieved from Pain by Lydia E. Pinkham's Vegetable Compound.

Taunton, Mass.—"I had pains in both sides and when my periods came I had to stay at home from work and suffer a long time. One day a woman came to our house and asked my mother why I was suffering. Mother told her that I suffered every month and she said, 'Why don't you buy a bottle of Lydia E. Pinkham's Vegetable Compound?' My mother bought it and the next month I was so well that I worked all the month without staying at home a day. I am in good health now and have told lots of girls about it."—Miss CLARICE MORIN, 22 Russell Street, Taunton, Mass.

Thousands of girls suffer in silence every month rather than consult a physician. If girls who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion would take Lydia E. Pinkham's Vegetable Compound, a safe and pure remedy made from roots and herbs, much suffering might be avoided.

Write to Lydia E. Pinkham Medicine Co., Lynn, Mass. (confidential) for free advice which will prove helpful.

Who Said "Ash?"  
Bacon—A museum of the horse, presenting a complete history of that animal from the earliest known period to the present, has been established in Paris.  
Egbert—Well, from all reports, Paris is a proper place to look for the rehash of the horse.

Sties, Granulated Eyelids, Sore and Inflamed Eyes healed promptly by the use of ROMAN EYE BALM.—Adv.

Its Purpose.  
"So this is the prison laundry?"  
"Yes, ma'am."  
"I suppose you wash and iron the convicts here?"

No Wonder.  
"The sight of the man yonder is certainly good for sore eyes."  
"Is he a dear friend?"  
"No; he's an oculist."

## OH! MY BACK

A stubborn backache is cause to suspect kidney trouble. When the kidneys are inflamed and swollen, stooping brings a sharp twinge in the small of the back, the back almost takes the breath away. Soon there may be other symptoms; scanty, painful or too frequent urination; headache, dizziness, or rheumatic pains. Don't wait for these troubles to become serious—use Doan's Kidney Pills at once. You'll find no better-recommended remedy.

## An Ohio Case

Mrs. H. Winger, 903 Betts St., Cincinnati, Ohio, says: "I was an invalid from kidney complaint and was confined to bed for months. My limbs were badly swollen and I did my whole body was racked with pain. My head ached for hours. I had dizzy spells and my health was all run down. Three boxes of Doan's Kidney Pills completely cured me and I am now in good health."

Get Doan's at Any Store, 50c a Box  
**DOAN'S KIDNEY PILLS**  
FOSTER-MILBURN CO., BUFFALO, N. Y.

## ASTHMA

DR. J. D. KELLOGG'S ASTHMA REMEDY for the prompt relief of Asthma and Hay Fever. Ask your druggist for it, 25 cents and one dollar. Write for FREE SAMPLE to Northrop & Lyman Co., Inc., Buffalo, N. Y.

Dr. J. D. KELLOGG'S REMEDY

## Every Woman Wants

**Paxtine**  
ANTISEPTIC POWDER FOR PERSONAL HYGIENE

Dissolved in water for douches stops pelvic catarrh, ulceration and inflammation. Recommended by Lydia E. Pinkham Med. Co. for ten years. A healing wonder for nasal catarrh, sore throat and sore eyes. Economical. Has extraordinary cleansing and germicidal power. Sample Free. 25c. All druggists, or ordered by mail. The Paxtine Toilet Company, Boston, Mass.

## The Army of Constipation

Is Growing Smaller Every Day.

**CARTER'S LITTLE LIVER PILLS** are responsible—they not only give relief—they permanently cure Constipation. Millions use them for

Biliousness, Indigestion, Sick Headache, Sallow Skin.

SMALL PILL, SMALL DOSE, SMALL PRICE.

Genuine must bear Signature

*Wheat*

**PARKER'S HAY FEVER BALM**

A soot preparation of menthol. Helps to eradicate the cause. For Reddening Color and Beauty to Gray or Faded Hair. 25c. and 50c. All druggists.
